'Sequence 23, Application US/08956171E
'Patent No. 6593114
'GENERAL INFORMATION:
'APPLICANT: Charles Kunsch
'TITLE OF INVENTION: Barash
'NUMBER OF SEQUENCES: 5256
'CORRESPONDENCE ADDRESS: ADDRESSE: Human Genome Sciences, Inc.'
STREET: 9410 Key West Avenue
'STATE: Maryland
'COUNTRY: USA
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 COMPUTER READABLE FORM:

Sequence 5161, Application US/09987899

Publication No. US20040116682A1

GENERAL INFORMATION:

APPLICANT: Cheikh, Nordine

APPLICANT: Liu, Jingdong

APPLICANT: Liu, Jingdong

TITLE OF INVENTION: Nucleic Acid Molecules and Other Molecules Associated

TITLE OF INVENTION: With the Carbon Assimilation Pathway

TITLE OF INVENTION: With the Carbon Assimilation Pathway

FILE REFERENCE: 16517.258

CURRENT APPLICATION NUMBER: US/09/987,899

CURRENT FILING DATE: 1999-03-04

PRIOR FILING DATE: 1999-03-04

PRIOR FILING DATE: 1999-03-06

NUMBER OF SEQ ID NOS: 7341

LEMENT OF SEQ ID NOS: 7341

Sequence 5802, Application US/09987899

Publication No. US2040116682A1

GENERAL INPORMATION:

APPLICANT: Cheikh, Nordine

APPLICANT: Chi, Jingdong

APPLICANT: Miler, Phillip W.

APPLICANT: Miler, Phillip W.

TITLE OF INVENTION: Nucleic Acid Molecules and Other Molecules Associated

TITLE OF INVENTION: With the Carbon Assimilation Pathway

FILE REFERENCE: 16517.258

CURRENT APPLICATION NUMBER: US/09/987,899

CURRENT APPLICATION NUMBER: US 60/056,712

PRIOR FILING DATE: 1999-03-04

PRIOR FILING DATE: 1999-03-04

PRIOR FILING DATE: 1999-03-06

Kunjin virus

Kunjin virus

Viruses; ssRNA positive-strand viruses, no DNA stage; Flaviviridae;

Flavivirus; Japanese encephalitis virus group.

1 (bases 1 to 600)
